Early Literacy Matters

State-by-State Policy Implementation Report

Explore New Jersey’s adoption and implementation of the 18 Early Literacy Fundamental Principles.
Early Literacy Policy Implementation Rubric

Comprehensive Early Literacy Policy establishes support and intensive reading interventions for all K–3 students to ensure they read on grade level by the end of 3rd grade. The policy also requires 3rd grade students to demonstrate sufficient reading skills for promotion to 4th grade. For students severely below grade level and who do not qualify for a good cause exemption, retention provides struggling readers the additional time and intensive interventions they need to catch up with their peers.

Early Literacy Policy Implementation Rubric

PURPOSE

The purpose of this document is to provide an analysis of states’ implementation of K–3 reading policies aligned to ExcelinEd’s fundamental principles of an early literacy policy. It builds on an analysis of states’ adoption of statutes and regulations establishing requirements for each component of the four fundamental principle areas, which are:

1. Supports for Teachers & Policy
2. Assessment & Parent Notification
3. Instruction & Intervention
4. Retention & Intensive Intervention

This report summarizes evidence of New Jersey’s early literacy policy implementation using an implementation rubric designed to gauge state progress toward full implementation of early literacy policies. Each of the fundamental principles is addressed in a separate table.

ADOPTION IMPLEMENTATION

3 out of 18

STATE POLICY ADOPTION REFERENCE MATERIALS

- NJAC 6A:13 Programs and Practices to Support Student Achievement – 6A:13-3.4 Language Arts Literacy
- New Jersey Department of Education, New Jersey Student Learning Standards: English Language Arts
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT require all K–3 teachers and administrators to participate in state-adopted science of reading training.

- New Jersey policy DOES require the Department of Education to provide training opportunities relating to reading disabilities, including dyslexia, to school district personnel. However, there is NO requirement that these opportunities be aligned with the science of reading.

- New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade, which should include training opportunities for teachers focused on the elements of intensive early literacy.

- New Jersey HAS provided limited funding for educator training at no cost to participating schools.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should expand policy to require all K–3 teachers and administrators to participate in state-adopted science of reading training.

- In adopting this policy, New Jersey should ensure there is an implementation plan for rollout that is clearly communicated to all educators.
IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT provide for literacy coaches who are trained in the science of reading and are assigned to every elementary school in policy.

• New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade, which should include use of a highly skilled literacy coach or certified teacher to coordinate training and collaboration. However, there is NO mention of training in the science of reading.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should ensure that a literacy coach that is trained in the science of reading is assigned to each elementary school to provide job-embedded training and coaching to K–3 teachers.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES have standards for teacher preparation programs that address all core components of scientifically based reading. However, the standards DO NOT provide details. (NCTQ, New Jersey Summary 2023)

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should expand policy to require that EPP-required coursework for elementary, early childhood, and special education candidates is aligned to the science of reading and prohibits the use of course materials that include three-cueing.

- New Jersey should further ensure coursework includes evidence-based literacy instruction, how to administer reading assessments, and how to identify students with reading difficulties, such as dyslexia.
Educator Preparation Program (EPP) Assessment

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES require a licensure test that addresses reading: Praxis Elementary Education: Multiple Subjects, Reading and Language Arts subtest. However, this licensure test DOES NOT adequately address all five core components of reading and is optional. (NCTQ, New Jersey Summary 2023; NCTQ, False Assurances: Many states’ licensure tests don’t signal whether elementary teachers understand reading instruction (Nov. 2023))

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should require elementary education candidates to pass an assessment that is aligned to the science of reading to obtain teacher licensure.
IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

Funding is dedicated to some but not all early literacy fundamental principles and may be temporary or grant based.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES provide direct funding specifically to support state and/or local implementation of early literacy fundamental principles. These include:
  - New Jersey Tiered System of Supports – Early Reading Grant initiative
  - Funding for training
  - GEER funding: $17 million for High-Impact Tutoring
    (*Funding availability is limited and will expire.*)
  - State and federal funding: Through the FY23 budget and remaining ESSER funds, NJ has launched RAPID ($2 million) and RAPID-Plus ($3 million) to provide training to educators relating to literacy.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should determine the adequate funding level to ensure implementation of the fundamental principles are fully funded.
Universal Reading Screener

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT require a state-approved universal reading screener to be administered to K–3 students three times per year to identify students at risk for reading failure.

- New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade, which should include a reading measure used minimally at the beginning of Kindergarten–3rd grade to determine the reading skills and strategies students have mastered.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should require a state-approved universal reading screener to be administered to all K–3 students three times per year to identify students at risk for reading failure.
The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

**EVIDENCE/GUIDANCE**

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT require schools to administer a state-approved screener for characteristics of dyslexia.
- New Jersey policy DOES require schools to screen for characteristics of dyslexia where dyslexia is suspected. However, NO further details are provided.

**CONSIDERATION(S) FOR STRENGTHENING POLICY**

- New Jersey should expand policy to require schools to administer a state-approved screener for characteristics of dyslexia that assess the following skills, as developmentally appropriate: phonological and phonemic awareness, sound-symbol recognition, alphabet knowledge, decoding, rapid naming, encoding, and oral reading fluency.
- New Jersey should require the dyslexia screener to be administered, at a minimum, to all students at the end of Kindergarten and at the beginning of 1st and 2nd grade.
Parental Notification

IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT provide for parental notification of students identified with reading difficulties.

- New Jersey policy DOES require high need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade, which should include methods to involve parents and family members in student learning.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- Following approval of a universal screener and dyslexia screener to be administered to students, New Jersey should further expand policy to require parental notification of students identified with reading difficulties within 30 days of each administration of the state-approved universal reading screener and dyslexia screener.
District Adoption of High-Quality Instructional Materials

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT require school districts to adopt high-quality instructional materials aligned to the science of reading and state standards.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should expand policy to require school districts to adopt high-quality instructional materials aligned to the science of reading and state standards from a vetted and approved list.

• New Jersey should further require districts to post their adopted materials on the district website.
Elimination of Three-Cueing Instructional Materials

IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT, through policy, guidance, training, or other avenues, prohibit or discourage the use of instructional materials that include three-cueing.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should adopt a policy, clearly in statute or regulation, that prohibits the use of three-cueing.
Individual Reading Plans

IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT require the creation of individual reading plans for students identified with a reading deficiency.
- New Jersey policy DOES require the development of action plans to provide interventions or referrals for students who are having learning difficulties. However, reading IS NOT specifically mentioned in this policy.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- In addition to establishing policy relating to universal reading screeners, New Jersey should require schools to develop and implement an individual reading plan for students who are identified as having a reading deficiency within 30 days of receiving screening results.
- Further, New Jersey should establish a process for monitoring the implementation of those plans and a timeline for notifying parents of the development of the plan.
Regularly Monitor Student Progress

IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

The state requires schools to monitor students’ progress within a multi-tiered system of supports (MTSS). Monitoring can take many forms (i.e., observations, screeners, assessments, and student work).

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT track district/school monitoring of students’ progress within a MTSS.
- New Jersey HAS created a New Jersey Tiered System of Supports to improve student achievement.
- New Jersey policy DOES require the review of the effectiveness of each intervention and referral services action plan, as well as modification to that plan where necessary, as part of the intervention and referral services program in each school building, but this is NOT specific to literacy.
- New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade. This should include consistent and adequate opportunities for educators to analyze student work, interim progress measures, and assessment results, and plan any modifications, if needed.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- Following expansion of policy to require administration of universal reading screeners, New Jersey should then expand policy to require schools to regularly monitor and document students’ progress within a multi-tiered system of supports (MTSS).
- Through the MTSS, New Jersey should require schools to use data to inform instruction and interventions as needed and in a timely manner. Note that monitoring can take many forms, including observations, screeners, assessments, and student work.
Evidence-Based Interventions

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT have a policy relating to the use of evidence-based science of reading interventions for students who have been identified as having a reading deficiency.

• New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for PreKindergarten–3rd grade, which should include uninterrupted language arts literacy blocks with specific instructional strategies.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should expand policy to require school districts to target students’ needs by adopting interventions grounded in the science of reading from a vetted and approved list.
Summer Reading Camps

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT have a policy requiring districts to offer summer reading camps to rising 1st–4th grade students at risk of reading failure.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should expand policy to require districts to offer summer reading camps to rising 1st–4th grade students at risk of reading failure to remediate learning loss and/or build reading skills.

• New Jersey should further require all staff at summer reading camps be trained in the science of reading.
Parent Read-At-Home Plan

IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT require schools to provide read-at-home plans to parents as soon as a student is identified with a reading deficiency.
- New Jersey DOES provide family guides for families to learn more about literacy and what children should know in each grade.
- New Jersey policy DOES require high-need school districts, where less than 85% of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3, to provide an intensive early literacy program for Pre-Kindergarten–3rd grade, which should include methods to involve parents and family members in student learning.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should expand policy to require schools to provide read-at-home plans to parents as soon as a student is identified with a reading deficiency.
- Further, New Jersey should require strategies that are shared with parents to target students’ needs based on data and are aligned with the science of reading.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• New Jersey DOES NOT have a policy that requires a student who is unable to demonstrate sufficient reading skills on the state test-based options be retained.
• New Jersey policy DOES require local boards of education to adopt policies and procedures for student promotion and remediation.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• New Jersey should expand policy to require that a student who is unable to demonstrate sufficient reading skills on the state test-based options be retained.
Multiple Options for Promotion

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT have a retention policy and DOES NOT offer at least three pathways for promotion to 4th grade.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should expand policy to require that students who are unable to demonstrate sufficient reading skills on the state test-based options be retained. Policy should include at least three pathways for promotion to 4th grade including achieving a predetermined level on the state reading assessment, passing an alternative assessment or retest, or successfully demonstrating sufficient 3rd grade reading skills through a portfolio of student work.
Good Cause Exemptions for Some Students

IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- New Jersey DOES NOT have a retention policy and DOES NOT allow specific good cause exemptions for promotion to 4th grade.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- New Jersey should expand policy to require that students who are unable to demonstrate sufficient reading skills on the state test-based options be retained. Policy should include specific good cause exemptions for promotion to 4th grade that recognize the special needs of some students with disabilities, English language learners, and students who were previously retained.

- New Jersey should further require intensive interventions to continue in 4th grade for students promoted for good cause.
