Early Literacy Matters

State-by-State Policy Implementation Report

Explore North Dakota’s adoption and implementation of the 18 Early Literacy Fundamental Principles.
Early Literacy Policy Implementation Rubric

Comprehensive Early Literacy Policy establishes support and intensive reading interventions for all K–3 students to ensure they read on grade level by the end of 3rd grade. The policy also requires 3rd grade students to demonstrate sufficient reading skills for promotion to 4th grade. For students severely below grade level and who do not qualify for a good cause exemption, retention provides struggling readers the additional time and intensive interventions they need to catch up with their peers.

Early Literacy Policy Implementation Rubric

PURPOSE

The purpose of this document is to provide an analysis of states’ implementation of K–3 reading policies aligned to ExcelinEd’s fundamental principles of an early literacy policy. It builds on an analysis of states’ adoption of statutes and regulations establishing requirements for each component of the four fundamental principle areas, which are:

1. Supports for Teachers & Policy
2. Assessment & Parent Notification
3. Instruction & Intervention
4. Retention & Intensive Intervention

This report summarizes evidence of North Dakota’s early literacy policy implementation using an implementation rubric designed to gauge state progress toward full implementation of early literacy policies. Each of the fundamental principles is addressed in a separate table.

ADOPITION IMPLEMENTATION

7 out of 18

STATE POLICY ADOPTION
REFERENCE MATERIALS

- NDCC 15.1-21.12.1 Reading Curriculum – Content – Professional Development
- Administrative Rules 67-31 Reading Curriculum
- North Dakota Literacy Plan (Revised April 2023)
**Science of Reading (SOR) Training**

**IMPLEMENTATION LEVEL**

**FULL IMPLEMENTATION**

State-adopted science of reading training is required for all K–3 teachers and administrators, and an implementation plan for rollout is clearly communicated to all educators.

**EVIDENCE/GUIDANCE**

**Evidence of the state’s policy implementation and/or guidance in this area includes:**

- North Dakota [policy](#) DOES require teachers in K–3 and principals of public and nonpublic schools with K–3 students to attend teacher-approved professional development training, aligned to the science of reading.
- North Dakota HAS adopted science of reading training for K–3 teachers and administrators. ([NDDPI, ND Science of Reading, Professional Learning](#))
- North Dakota DOES monitor district training of K–3 public and nonpublic elementary school teachers and principals by requiring an annual report to the state. ([NDDPI, Reading Curriculum & PD Annual Report](#))
- North Dakota HAS partnered with the [North Dakota Regional Education Association](#) to provide statewide professional learning opportunities to meet the literacy requirements in the state.

**RESOURCES**

- [NDDPI, Reading Curriculum and Professional Development Guidance and FAQ](#)
- [NDDPI, Reading Curriculum & Professional Development Reporting (slides)](#)
IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

Literacy coaches are present in policy and trained in the science of reading, and they may provide job-embedded professional development and coaching to K–3 teachers based on student data or other models.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota HAS created a literacy coaching cadre to support literacy and instructional coaches to improve student outcomes. (Syllabus: ND Literacy Coaching Cadre)

• North Dakota coaches in the literacy coaching cadre ARE trained in the science of reading. (Coaching the Science of Reading)

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should ensure that a literacy coach that is trained in the science of reading is assigned to each elementary school to provide job-embedded professional development and coaching to K–3 teachers.
Educator Preparation Program (EPP) Alignment

IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

EPP required coursework is aligned to the science of reading and includes evidence-based literacy instruction.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- North Dakota DOES have standards for educator preparation programs that address the components of the science of reading. ([NCTQ, North Dakota Summary (2023)](https://www.nctq.org/reports/education-preparation North Dakota EPP standards))

- North Dakota policy DOES require candidates for teacher licensure who will be certified as early childhood or elementary teachers to demonstrate competencies in beginning reading instruction based on scientifically research-based best practices.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- North Dakota should ensure that EPP required coursework that is aligned to the science of reading also prohibits the use of course materials that include three-cueing.

- North Dakota should also ensure that coursework includes evidence-based literacy instruction, how to administer reading assessments, and how to identify students with reading difficulties.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES require licensure tests that address reading: Praxis Elementary Education: Curriculum, Instruction and Assessment; however, these licensure tests DO NOT adequately address all five core components of reading. (NCTQ, North Dakota Summary (2023); NCTQ, False Assurances: Many states’ licensure tests don’t signal whether elementary teachers understand reading instruction (Nov, 2023))

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should require elementary education candidates to pass an assessment that is aligned to the science of reading in order to obtain teacher licensure.
Funding for Literacy Efforts

IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

Funding is dedicated to some but not all early literacy fundamental principles and may be temporary or grant based.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES provide direct funding specifically to support state and/or local implementation of early literacy fundamental principles. These include:
  • LETRS training for elementary buildings serving K–3 students
  • Funding for systemwide literacy improvement (ESSER funds)

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should determine the adequate funding level to ensure implementation of the fundamental principles are fully funded.
Universal Reading Screener

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT require the state to approve a universal reading screener to be administered to K–3 students three times per year to identify students at risk of reading difficulties.

• North Dakota DOES monitor districts’ administration of a reading screener, as districts must annually report the assessment instruments that are being used to diagnose reading development and comprehension in Kindergarten–3rd grade. (NDDPI, Reading Curriculum and Professional Development Guidance and FAQ)

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require the state to approve a universal reading screener to be administered to K–3 students three times per year to identify students at risk for reading failure.
Screener for Characteristics of Dyslexia

IMPLEMENTATION LEVEL

PARTIAL IMPLEMENTATION

A state-approved screener for characteristics of dyslexia assesses the following skills as developmentally appropriate: phonological and phonemic awareness, sound-symbol recognition, alphabet knowledge, decoding, rapid naming, encoding, and oral reading fluency.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota HAS approved screeners for characteristics of dyslexia but only for students under the age of 7. (NDDPI, Dyslexia Universal Screening Approval Guidance)

• Through 2023–2024, North Dakota DOES allow districts to use a different tool for universal dyslexia screening that is not on the approved list. (NDDPI, Dyslexia Universal Screening Approval Guidance)

• Beginning in 2024–2025, North Dakota WILL require districts to only use tools from the approved list. (NDDPI, Dyslexia Universal Screening Approval Guidance)

• North Dakota DOES require the approved screener for characteristics of dyslexia to assess the following skills: phonemic awareness, decoding, and spelling. (NDDPI, Dyslexia Universal Screening Approval Guidance)

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require a state approved screener for characteristics of dyslexia to be administered to all students at the end of Kindergarten and the beginning of 1st and 2nd grade.

• North Dakota should require state approved screeners to screen for all of the following skills as developmentally appropriate: phonological and phonemic awareness, sound-symbol recognition, alphabet knowledge, decoding, rapid naming, encoding, and oral reading fluency.
IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- North Dakota HAS NOT adopted a policy to require administration of a universal reading screener to students in K–3 at least three times per year and thus HAS NOT adopted a policy requiring parental notification.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- In addition to expanding policy to require districts to administer the state-adopted universal screener to all K–3 students three times per year, North Dakota should then require parental notification of students that are identified with reading difficulties within 30 days of the administration of that screener and the dyslexia screener.
District Adoption of High-Quality Instructional Materials

IMPLEMENTATION LEVEL

PARTIAL IMPLEMENTATION

The state provides guidance and resources to assist districts in the identification and selection of high-quality instructional materials aligned to the science of reading and state standards.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES provide guidance and resources to support the identification and selection of HQIM aligned to science of reading and state standards—the Central Regional Education Association and South East Education Cooperative created a partnership to support North Dakota schools interested in using ELA curriculum materials that align to the ND state standards and science of reading. (NDREA, North Dakota Science of Reading: Curriculum Materials Considerations for ND Schools)

• North Dakota HAS created the ND science of reading Leadership Team to support the implementation and use of evidence-based instructional materials. (NDREA, North Dakota Science of Reading: Curriculum Materials Considerations for ND Schools)

• North Dakota DOES require districts to report the reading curriculum used in schools for K–3, to ensure it is scientifically-, evidence-, and research-based. NDDPI, Reading Curriculum and Professional Development Guidance and FAQ

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require districts to adopt high-quality instructional materials that are aligned to the science of reading and state standards from a vetted and approved list.

• North Dakota should further require districts to post their adopted materials on the district website.
Elimination of Three-Cueing Instructional Materials

IMPLEMENTATION LEVEL
PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT, through policy, guidance, training, or other avenues, discourage the use of instructional materials that include three-cueing.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should adopt a policy, clearly in statute or regulation, that prohibits the use of three-cueing.
The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

**EVIDENCE/GUIDANCE**

_Evidence of the state’s policy implementation and/or guidance in this area includes:_

- North Dakota DOES NOT have a policy relating to development of individual reading plans for students who are identified as having reading deficiencies.

**CONSIDERATION(S) FOR STRENGTHENING POLICY**

- In addition to adopting the universal screener principle discussed above, North Dakota should then require schools to develop and implement an individual reading plan for students who are identified as having a reading deficiency on the universal screener within 30 days of receiving results.
- North Dakota should then establish a process for monitoring the implementation of those plans and a timeline for notifying parents of the development of the plan.
Regularly Monitor Student Progress

IMPLEMENTATION LEVEL
PARTIAL IMPLEMENTATION

The state requires schools to monitor students’ progress within a multi-tiered system of supports (MTSS). Monitoring can take many forms (i.e., observations, screeners, assessments, and student work).

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- North Dakota DOES track district/school monitoring of students’ progress within a MTSS. (See also NDREA, North Dakota Science of Reading)
- North Dakota DOES use data to determine where resources should go to improve student learning and support staff. (NDREA, North Dakota Science of Reading)

CONSIDERATION(S) FOR STRENGTHENING POLICY

- To strengthen the state’s existing implementation of the fundamental principle of progress monitoring of students, North Dakota should adopt a universal reading screener to be administered to all K–3 students at least three times per year, which can help provide further data to inform instruction and interventions within the MTSS.
Evidence-Based Interventions

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- North Dakota DOES NOT require school districts to adopt evidence-based interventions grounded in the science of reading.
- North Dakota DOES provide some guidance to districts on selecting interventions and intervention materials.
  - Note: The guidance document from North Dakota notes that additional information on intervention materials and resource guides will be issued at a later date.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- North Dakota should establish a vetted and approved list of interventions that are grounded in the science of reading from which districts can choose in order to target students’ needs.
- North Dakota should ensure the vetted and approved list includes interventions that occur before, during, and after school.
Summer Reading Camps

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT require districts to offer summer reading camps to rising 1st–4th grade students at risk of reading failure.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require districts to offer summer reading camps to rising 1st–4th grade students at risk of reading failure to remediate learning loss and/or build reading skills.

• North Dakota should require all staff at summer reading camps to be trained in the science of reading.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT require districts to provide read-at-home plans to parents when a student has been identified as having a reading deficiency.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should require schools to provide read-at-home plans to parents as soon as a student is identified as having a reading deficiency.
• In requiring read-at-home plans, the state should require that strategies shared with parents target students’ needs based on data and are aligned with the science of reading.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT require students who are unable to demonstrate sufficient reading skills on the state test-based options be retained.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require that students who are unable to demonstrate sufficient reading skills on the state test-based options be retained and receive intensive reading intervention.
IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

- North Dakota DOES NOT have a retention policy and does not offer at least three pathways for promotion to 4th grade.

CONSIDERATION(S) FOR STRENGTHENING POLICY

- North Dakota should expand policy to require that students who are unable to demonstrate sufficient reading skills on the state test-based options be retained, and include options for promotion to 4th grade.

- A policy providing options for promotion to 4th grade should include achieving a predetermined level on the state reading assessment, passing an alternative assessment or retest, and successfully demonstrating sufficient 3rd grade reading skills through a portfolio of student work.
Good Cause Exemptions for Some Students

IMPLEMENTATION LEVEL

PRINCIPLE NOT ADOPTED

The state has not adopted policy (statute or regulation) that meets the fundamental principle for this area.

EVIDENCE/GUIDANCE

Evidence of the state’s policy implementation and/or guidance in this area includes:

• North Dakota DOES NOT have a retention policy and does not allow for specific good cause exemptions for promotion to 4th grade.

CONSIDERATION(S) FOR STRENGTHENING POLICY

• North Dakota should expand policy to require that students who are unable to demonstrate sufficient reading skills (on the state test-based options provided) to be retained, and provide for good cause exemptions.

• The policy providing for good cause exemptions should recognize the special needs of some students with disabilities, English language learners, and students who were previously retained. The policy should also provide for intensive interventions to continue in 4th grade for students who are promoted for good cause.
